ALEJANDRO VIÑO LOUREIRO

FRONTEND DEVELOPER

2 years of experience as a frontend developer. Focused on detail. Adapt and learn new things with ease. Problem-solving and proactive mindset to bring the best user experience to customers.

MOST RECENT WORK EXPERIENCE

Frontend Developer at DEUS

May 2022 - Present · 1 yr 3 mos [A Coruña, Spain] [IT consultancy]

RESPONSIBILITIES

- Develop SaaS based on React, TypeScript, MUI, Vite, Vitest and React Testing Library.
- Develop an instagram-like internal web app with Next.js, TypeScript, Mantine, TanStack Query, Jest and React Testing Library.
- Support developer intern as well as other team members.

KEY ACCOMPLISHMENTS

- Launched a service to allow users to easily extract info from huge pdf documents by asking questions to them using a machine learning model.
- Launched internal service that allows users (company members) to share photos with their teammates.
- Improved maintainability of project by implementing TypeScript and testing with Jest and React Testing Library.

Junior Frontend Developer at Itelsis

Oct 2021 - May 2022 · 7 mos [Santiago de Compostela, Spain] [B2B, SaaS]

RESPONSIBILITIES

- Develop SaaS based on Angular, TypeScript, Angular Material, Cypress, Python and Django/Django REST.

KEY ACCOMPLISHMENTS

- Improved app functionality and design by implementing a fully customizable dashboard which shows meaningful data and lets the user take control over what they want to see.
